Controversies and Conversations in **Cutaneous Laser Surgery** *An Advanced Symposium*

August 13 - 15, 2004

Fairmont Tremblant
Mont-Tremblant, Canada

OBJECTIVE

These last few years have seen the development of many new lasers and light sources, each with proponents and opponents. The claims and disclaims that follow the development of these devices is often contradictory. A faculty of distinguished speakers present their views and develop a consensus on many of these controversies and other emerging areas. "Controversies" offer participants a unique opportunity to discuss these controversial topics in a collegial atmosphere with a large group of experts in the field.

This course will thus be of benefit to beginner and experienced laser and aesthetic surgeons, dermatologists, plastic surgeons, otolaryngologists, ophthalmologists, and other health care personnel interested in the current status of cutaneous surgery.

FORMAT

The controversial issue will be presented at the start of each discussion. Selected faculty members will then be given a finite period of time to present their view. Other faculty will be asked to comment on the presentations. This will be followed by an open discussion, led by Drs. Dover, Arndt and Anderson. Both the faculty, as well as members of the audience, will be encouraged to challenge each other's opinions in a lively, no holds barred discussion. The last presentation each morning will feature challenging therapeutic problems. Participants and faculty are invited to bring along slides of difficult cases. Throughout the seminar, there will be ongoing discussions among the expert faculty and the participating clinicians about current trends and state-of-the-art techniques in cutaneous and aesthetic laser surgery.

CONTROVERSIES AND CONVERSATIONS

1. Non-Ablative Skin Rejuvenation: Where's the Beef?
2. Lasers, Lights and RF for Acne: Lots of Choices - Which is Best
3. New Practical Optical Diagnostic Concepts for the Practicing Clinician – Any New Toys for Us to Play With?
4. Has Photodynamic Therapy Finally Hit Its Stride?
5. Has Radio Frequency Skin Tightening Met Its Expectations? Who, When, Where and How Often to Treat, and What's Next?
6. Do Lasers, Light and intense UVB Sources Really Work for Hypopigmented Scars, Striae, and Vitiligo?
7. Is Cooling Still Cool?
8. Treatment of Tattoos and Pigmentary Disorders: Anything New?
9. Is Intense Pulsed Light Any Better Than Lasers?
10. What Have New Findings and New Technologies Taught us About Treating Vascular Lesions?
11. Hair Removal: Have We Reached The End of the Line?
12. Laser Safety: Will Eye Injuries Spell the End of Laser and Light Therapy?

Fairmont Tremblant

The Fairmont Tremblant sits at the foot of the majestic Laurentian peaks, tucked into the heart of the regions most picturesque village. This architectural masterpiece of a resort, rooted in the legends of Quebec, boasts state-of-the-art facilities. The resort has received the AAA/CAA Four-Diamond Award, is on the Conde Nast Traveler Gold List, and has received a 5-star rating from Tourism Quebec. Climb aboard the high-speed chairlift at the doorstep of the resort to play a round of golf or explore mountain trails or ride on mountain bikes. Other facilities of the resort include a spa/health club, indoor and outdoor heated pools and whirlpools, a 400 sq.ft hot tub, a game room, exercise room, children's programs, babysitting, lake beaches, tennis courts, two golf courses, sailing, rafting, fly fishing, canoe excursions and other water sports.

The spectacular Laurentian Mountains is an hour drive from Montreal. Mont Tremblant is home to a wilderness punctuated by quaint villages, tranquil lakes, mountain trails, and challenging golf courses. Carved into the base of the majestic peak, Tremblant village offers visitors an exciting array of exclusive boutiques, decadent dining, and an active and lively nightlife.
